## Results that Remain ARE APPRECIATED BY POTOSI PEOPLE.

Thousands who suffer from backache and kidney complaint have tried one remedy after another, finding only temporary benefit. This is discouraging, but there is one kidney medicine that has earned a reputation for lasting results and there is plenty of proof of its merits right here in Potosi.

Here is the testimony of one who used Doan's Kidney Pills years ago and now makes his testimony even stronger:

W. B. Compton, Main St., Potosi, Mo., says: "The statement I gave recommending Doan's Kidney Pills some years ago still holds good as my cure has been permanent. I have often recommended this remedy to other people and it has always done good work. I had pains in the small of my back and this was very annoying. I knew that my kidneys needed toning up and when a friend told me to take Doan's Kidney Pills, I got a box at the City Drug Store. It didn't take them long to correct my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## A LADY'S ORGANIZATION.

HOW A GOOD ROADS MOVEMENT GREW OUT OF A LADIES ORGANIZATION AT IRONDALE.

From the Iron Mountain Democrat-News.

An organization of original character and which has proven to be a very useful one, is that founded at Irondale, Mo., known as the Pick and Shovel Association. The organization is composed of a number of girls who study domestic science and the problems of rural life. Out of their organization has grown a good roads association that promises to make of that township an object lesson of great value. In response to an inquiry from the editor of the Iron Mountain, we have received and following letter from Mrs. J. W. Houston who notes that any one who is responsible for the success of the movement:

Irondale, Mo., Oct. 4, 1912.

Dear Sir:—Replying to your request of September 30th, I herein enclose a group view of the Irondale Pick and Shovel Association.

First, we organized a mothers', teachers' and fathers' association in connection with, and under the auspices of the Modern Country Club.

Later we had the girls' organization, the Pick and Shovel Association, and it is wonderful how rapidly they are progressing in domestic science.

Recently some of their work was on display at the Chautauque at Potosi, Mo., and they were fortunate

are now selling so-called "clothes" in their shops. They have books showing samples and illustrations. In New York or Chicago are tailoring concerns that make the garments. The garments are cut unidentifiably after a certain pattern, rushed through in a few days and the result is what you might expect,—unsatisfactory clothes nine times out of ten. There is no necessity for "taking a chance" in clothes when you come to us and be perfectly fitted and satisfied in garments that you can see and wear home if you so choose.
